About Us.

At PAPAN South Sudan Ltd, we pride ourselves on being a leading Engineering and consultancy company, delivering innovative and high-quality solutions to meet the diverse needs of our clients.

With a strong commitment to excellence, we specialize in mechanical and electrical engineering, general consultancy, vehicle and equipment supplies, procurement and logistics, solar and renewable energy solutions, and design. Our goal is to provide efficient and impactful services that drive development and support the growth of South Sudan.

*Prioritizing Safety,
Empowering Progress:
Insights from Our Safety
Meeting*

We take a client-focused approach to every project, ensuring that our solutions address the unique challenges and opportunities faced by each client. Whether designing and implementing advanced mechanical and electrical systems, managing complex supply chains, or delivering sustainable energy solutions, we combine technical expertise with practical innovation to achieve exceptional results.

Our team of skilled professionals brings extensive knowledge and experience in both mechanical and electrical engineering, ensuring the highest standards of quality in all our projects. By leveraging cutting-edge technology and sustainable practices, we are able to promote environmentally responsible development, particularly through our focus on solar and renewable energy solutions.

Rooted in South Sudan, PAPAN South Sudan Ltd is committed to empowering communities, enhancing infrastructure, and fostering economic growth. Partner with us for reliable, innovative, and client-centered solutions that make a lasting impact.

Who we are?

Mission:

To deliver innovative, high-quality engineering, consultancy, and logistical solutions that drive sustainable development, enhance operational efficiency, and meet the unique needs of our clients.

We are committed to fostering progress through excellence, ensuring our services contribute positively to the economic growth and infrastructure development of South Sudan.

Vission:

To be the leading provider of integrated engineering, consultancy, and renewable energy solutions in South Sudan, recognized for our commitment to quality, innovation, and sustainability. We aim to empower communities, improve lives, and contribute to a prosperous, energy-efficient future through our expertise and client-centered approach.

GUIDING PRINCIPLES :

At PAPAN South Sudan Ltd, we are guided by a commitment to excellence, integrity, and innovation in all our operations. We strive to deliver high-quality solutions that meet the unique needs of our clients, ensuring transparency, accountability, and a customer-centric approach in every project. Our dedication to excellence drives us to continuously improve, embracing new technologies and practices to provide cutting-edge services. We believe in fostering strong relationships with clients, communities, and partners, working collaboratively to achieve shared goals and create lasting impact.

Sustainability and safety are core principles that guide our work. We prioritize environmentally responsible solutions, particularly in renewable energy, to contribute to South Sudan's sustainable development. Additionally, we ensure the safety of our team, clients, and the communities we serve by upholding the highest safety standards. As part of our social responsibility, we are committed to empowering local communities and supporting the region's economic growth through the services we provide, fostering long-term prosperity for South Sudan.

- Education

Expert Guidance for Sustainable Growth;

The Minister of Federal Affairs, Hon. Lasuba L. Wongo holding a discussion with a team of academic experts from Papan Consultancy Firm, the Ministry's strategy in soliciting ideas through research and consultations to assist in order to develop a federal model for the Republic of South Sudan

Taping from our national professionals, the Ministry of Federal Affairs has embarked on engaging national consultants who possess rich academic and diverse professional experience on governance with indepth knowledge in federal system of government. The Minister of Federal Affairs is involved in discussing the content of the draft blue print on federalism which the consultants presented to the ministry for comments. This is a great opportunity in the country as we prepare for the National conference on Federalism to decide the structure of federal system of government as shall be enshrine in South Sudan upcoming permament constitution.

*A meeting of the Working Group on Federalism which was convened to
discuss content of the Blueprint on
federalism and the upcoming National Conference on Federalism.*

*The valuable contributions from the Working Group were so impressive and shows how
South Sudan would establish the best federal system that ease and foster quick development
in all rural areas in the country.*

*It also highlighted the principle of transparency and accountability mechanism in the
management of public resources that accompany core instruments and principles of
federalism. Together we shall make a great difference for the betterment of our Republic.*

‘Holding together for the greater Union.

*Signing of Memorandum of understanding with the Under
Secretary - Ministry of Federal Affairs*
